Linking Therapy to Outcomes: Potential Successes and Areas of Need for Children with ASD

Stephanny F.N. Freeman, Ph.D.
Clinical Professor, UCLA Department of Child Psychiatry
Co-Director, Early Childhood Partial Hospitalization Program

LEARNING OBJECTIVES:
1. Become familiar with longitudinal research on therapy for autism spectrum disorders and understand the diversity of outcomes and factors involved in change.
2. Identify the relationship between broad service provision for younger children with autism and shorter term outcomes.
3. Understand the broader implications of the strengths and weaknesses of current community services.

WEDNESDAY
March 15, 2017
12:30 – 1:30 PM
